### BABE RUTH GETS START TOWARD 1920 SLUGFEST

#### Yankee's "White Hope" Trains His Heavy Artillery on American League Hurlers.

CHICAGO, May 15.—Babe Ruth's 1920 offensive toward a new home-run record is in full bloom. The New York slugger connected with a trio of homers in two days and has five circuit drives to his credit, according to averages completed today. The averages include games of Wednesday.

Johnson, of Cleveland, shot to the front among the American League batters with an average of .414 acquired in twenty games. The Cleveland first baseman connected with twenty-nine hits for a total of thirty-five bases. Joe Jackson, of Chicago, is right behind Johnson with a mark of .347, compiled in the same number of games. Jackson, however, made thirty-one hits for a total of forty-five bases, being at bat seventy-eight times to his rival's seventy.

Bobble Roth, Washington, is showing the way to the base stealers with his success. He has not yet fully recovered his slugging eye. In twenty-one games the Detroit star has made only eighteen hits for an average of .243.

Outfielder Nicholson, of Pittsburgh, has taken the lead among the National League batters with an average of .412, acquired in twenty games. Nicholson, the St. Louis star, with Roger Hornsby, the Philadelphia pitcher, are leading the league in slugging.

Black leading runner, Chicago, is the leading run getter. He has scored seventeen times and has been on base an average of twice a game, but the men following him have not been able to deliver the necessary punch to put him across the plate with anything like consistency.

Clayton Kershaw, who has recovered his batting eye, and is up among the leaders this week, is in a way, the only base runner with his team mate, Neale, and Stock, of St. Louis. Each has pilfered five bases.

Richmond College defeated the Richmond Grays yesterday by score of 9 to 5.

Although the score was rather large the game was well played by both sides. Most of the winners pitched a beautiful game, while the losers the catching of Moles featured.

### SOUTHERN DIALECT WINS ADMITTANCE TO AMERICA

#### Peter Snow Returns to U. S. After Wandering for Years in Africa.

NEW YORK, May 15.—The weird wanderings of Peter Snow, as he told them to immigration officials at Ellis Island today, won him admittance to the United States as a citizen.

Having arrived as a cook on the steamer Tuckanuck last week, he sought to enter the country with the declaration that he was a native of Georgia. He could not prove this, but narrated his tale of ocean and African roamings in such good American "Southern" dialect that, without material proof of his citizenship, he was admitted.

Snow said that some time about 1895, he had shipped as a cook from Savannah, Ga., aboard the ship Ito-say, which carried negroes back to Africa. He said he spent "about twenty-four years in Africa."

He landed in Monrovia, soon afterward he was robbed and "dead broke" in a land of black strangers. He began wandering.

He worked intermittently on "what they called farms," penetrating into some of the "darkest corners of Africa." He said he "just missed" Theodore Roosevelt when the latter left a certain little town on one of his African hunting expeditions.

Finally, Snow said, he was rescued by British missionaries, for whom he had worked four years.

### WILL THE CUP RACES REVIVE 'SAILBOATS' NOW

#### Or Have They Been 'Killed' by Speedy Motor Craft.

BY N. P. BARBOCK.

Among other explanations of the disappearance of the horse-drawn pleasure vehicles is the obvious one that they have been "crowded out" by motor craft. This cannot be said, for the fact is that the horse-drawn vehicles are still being used in some places, but the motor craft are more numerous and more popular.

A friend with whom I was discussing this matter recently said: "It is all in the line of the horse-drawn vehicles. They are being crowded out by the motor craft. They are being crowded out by the motor craft. They are being crowded out by the motor craft."

I hastened to say I would not, and then added: "But you wouldn't wish to have all the romance they lent to travel in their day forgotten, would you? Your car is an enthusiastic automobile, but the old catboat you used to own stood for the poetry of travel."

I have a very clear notion that to lose our love for sailing craft is to lose a portion of the romance they lent to travel in their day. They are being crowded out by the motor craft. They are being crowded out by the motor craft. They are being crowded out by the motor craft.

Finally, Snow said, he was rescued by British missionaries, for whom he had worked four years.
